

Can you lift 50 pounds?

**Good, you can help me
take a leak.**

– Paul Hansen

Fundraiser Deck for Ryan Hansen's Dad

While the quote on this board is funny, the reason I did this board is anything but. Recently, Paul Hansen, father to our own Ryan Hansen, suffered a severe and debilitating stroke, leaving him paralyzed on the left side of his body. As you can imagine, this has upended life for the Hansen's and has required substantial cost to get situated for the necessary ongoing care Paul needs.

I thought selling this board as a fundraiser would be a way to generate a contribution from the Minnesota skate community and for us to show our support to the Hansen family. You get a board for a little cheaper, and the Hansen's get some help with bills. For myself, and on behalf of the Hansen family – thank you for your support.

– Dan Jackson

Boards are 7.8" and cost

\$40

Available at:

**3rd Lair • Cal Surf
Familia • FL Project**
